The PindaMEI massage

The Pindas' tradition is one of the most ancient remedies that has its roots in the mists of time.

We have evolved this wellness tradition into a ritual that enhances the power of MEI herbs, prepared in a special micronized blend.

The treatment technique with Pindas is enhanced by the action of the warm rebalancing Tridosha oil on the body and by the precious Cotton Flower product line to improve facial regeneration.

Deep Wellbeing

A real sensory immersion that goes further and gives immediately perceived benefits even in case of muscle tension and localized soreness.

The combined action of manual techniques, heat and aromatherapy released by the Pindas counteracts tensions, stimulates the renewal of skin cells while giving immediately visible elasticity and brightness, and rebalances energy as well as physical and mental well-being.
